## PROFILE INFO

- 15 years of experience designing and developing engaging learning solutions, with deliverables such as eLearning, vILT/ILT, video, workshop activities, guides, job aids, and various graphic design-related assets
- 18 years of experience in graphic design, brand development, and user interface design
- Strong expertise in employee onboarding, leadership programs, sales enablement, and operational learning programs
- Adept at enhancing the holistic learning experience through new technologies, such as AI and VR elements, interactive online guides, and leveraging LMS/LXP features like chats and communities to boost engagement
- End-to-end ownership of instructional design and creative development processes (ADDIE model), which includes needs analysis, developing learning objectives, curriculum roadmaps, assessments, and SME collaboration

## EXPERIENCE

### December 2024 - Present

Zscaler | Denver CO (Remote Work)

#### Senior Learning Experience Designer (Revenue Enablement)

- Developed a Standard Operating Procedure (SOP) to ensure consistency in course localization and translation
- Designed a Partner Program certification training to drive effective engagement across Zscaler's 2,500+ channel network
- Developed a Federal Emerging Products playbook in collaboration with Public Sector stakeholders to streamline Sales navigation of market nuances and challenges
- Launched quarterly learning plans with key stakeholders to boost organizational readiness and knowledge transfer to Sales teams
- Delivered critical training to 3,000+ global Sales members and Partners at the annual SKO, enabling the execution of new product and sales strategies

### December 2020 - October 2024

Suffolk Construction | Boston MA (Remote Work)

#### Senior Instructional Designer

- Designed and implemented comprehensive ILT, eLearning, and video-based training programs for software adoption, safety, and construction operations
- Led the development of a 6-week onboarding program, training over 800 employees and time to productivity from traditional 12 months to 6 months
- Created a 20-month instructor-led training academy, upskilling junior-level field employees 40% faster than the industry standard
- Produced over 50 engaging video-based learning with professional voiceover and in-house production
- Designed a cohesive brand identity for Learning & Development content, applied across LMS/LXP, course catalogs, and career guides
- Managed vendor relationships, project timelines, and cross-functional team collaboration to improve training strategies
